Renowned as one of the most successful classical homeopaths worldwide, Dr Mahesh was influenced early by the work of Right Livelihood Awardee Dr Sudarshan and joined him in his work for the tribals of Karnataka. He worked at the state of the art hospital run in B R Hills by Karuna trust and gained his initial medical experience under stalwarts of medicine and surgery there. He then went on to do de addiction project for the tribals and also established a charitable homeopathic clinic at the foot of the hills. He consults every month there and is sought by people in the area, who are deprived of basic citizen amenities.

He further expanded to 5 districts of Karnataka to serve the rural population. At the same time, understanding the need for evidence based medicine, he started documenting cases that were cured with homeopathic treatment. The focus of documentation being cases that were known to have little benefit from the mainstream medicine if at all, such as vitiligo, gangrene, autism, retardation etc.

He recognised the need to educate people on concepts of health and therefore took to propagate on media - both print and electronic. Numerous articles have appeared in leading magazines, written by eminent journalists, regarding his work. The Kannada magazine Life 360 did a cover feature chronicling his life and work.

In 2006, he established Centre for Classical Homeopathy, consolidating his work in one place.

An ardent student of Prof George Vithoukas, a Right Livelihood Awardee and a master homeopath, he has been teaching at the International Academy of Classical Homeopathy, Greece since 2006. He is also the co ordinator for the E Learning program of the academy. He has been invited to teach classical homeopathy internationally including Germany, Mexico, Russia, Egypt

etc. Numerous homeopathic doctors, both Indian and foreign have sought classical homeopathic training under him. He was responsible for organising EventIndia - a mega conference getting over 1000 homeopaths under one roof for the sake of learning Classical Homeopathy.

His practice has provided great amount of data for peer reviewed articles in journals of impact.

He was invited to be a member of the Ministry of AYUSH's committee on Cancer Program. Many citizen associations such as the Lions Club have felicitated him for his contribution to health care. The range of cases he has treated and documented is exhaustive - Gangrene, Autism, Global retardation, Cancer, Psychiatric disorders, Vitiligo, Psoriasis, Asthma, Hypothyroidism, Renal failure, Allergies, Eczema, Hormonal imbalances, Dengue, Chikungunya, etc... These add up to over 20,000 cases so far.
